

Garment Racking - modular, easily adjustable system, offering versatile storage for hanging garments

Value engineered storage system delivering simple and economic solution to the bulk storage of hanging garments.

- Modular design allows further bays to be added and shelf levels to be incorporated within runs.
- The simple tap together design allows for easy dismantling, relocation or storage as stock requirements demand.
- Beam positions can be quickly and efficiently adjusted on 50mm pitch to provide optimum garment storage combinations, adapting to suit your seasonal range change requirements.
- Range of 5 beam lengths; 1200, 1350, 1500, 1650 and 1800mm. finished in Light Grey.
- Frames are 500mm deep and either 1800, 2100, 2400 or 3000mm high. Uprights are Light Grey with galvanised bracing.

For further information contact us today.

Shelving levels can be added allowing bagged or boxed stock to be stored. Choice of chipboard or steel panel shelf cladding materials.

Tap down to locate beam into frame and insert locking pin. Beams easily repositioned using press and release locking pin system
